

FUEL EFFICIENCY

FH:01™ ENERGY™

THE OPTIMUM COMBINATION BETWEEN FUEL EFFICIENCY AND HIGH MILEAGE.

MAXIMUM STEERING PRECISION AND PROGRESSIVE RESPONSE.

- The innovative groove geometry (wave shape) promotes **progressive response** and **steering precision**
- Ejectors at the bottom of lateral grooves prevent stones trapping thus ensuring **better durability and retreadability**
- The special shoulder tread contour allows a correct distribution of footprint contact pressure and ensures **optimal even wear** and **higher mileage**
- The compound formulation enriched in silica and nano filler, limits heat generation for **lower rolling resistance** and **long tyre life**

SIZE	LOAD INDEX/SPEED CODE	MARKINGS	EFFICIENCY LABELS		
275/70R22.5 TL	148/145 M (150/147 L)		C	A	70 dB
