The AP869 is a mixed service tread tire featuring a chip-resistant compound ideally suited for off-road and construction applications. A zigzag main groove pattern reduces stone retention, while maximizing traction under all applications. Sidewall protectors are engineered to provide an enhanced casing protection.

**TIRE FEATURES:**

- 1 Large deep shoulder groove improves traction and helps the tire run cool.
- 2 Interlocking lugs promote improve stability and uniform wear.
- 3 Wide footprint and unique shoulder design improve stability.
- 4 Specially formulated compound and deep tread depth improve tread life.
